Tom Wheeler
Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

September 22, 2015

Dear Mr. Tom Wheeler,

It is my pleasure to write a letter in support of Charter's proposed merger with Time Warner Cable and acquisition of Bright House Network. As the director of the Mecosta County Area Chamber of Commerce, I consider the merger and creation of New Charter to be a direct correlation with the Chamber's mission statement.

"The Mecosta County Area Chamber of Commerce is a voluntary network dedicated to promoting quality of life through the economic, educational and cultural development of Mecosta County."

I believe New Charter will dramatically boost the quality of life in Mecosta County through economic and cultural development. New Charter will broaden access to broadband by building upon Bright House Network's broadband program for low-income consumers, it will build out one million line extensions to help provide high-speed service to rural areas and will continue to create thousands of U.S. based jobs.

For the above reasons, I give my enthusiastic support to the proposed merger. I am certain that the advantages of New Charter will only improve the quality of life for Mecosta County.

Sincerely,

Jennifer Heinzman
Mecosta County Area Chamber of Commerce Director
